Impact LED EMC G5 Cabinets

Rev 3/26/2026
G5 v1.0.0

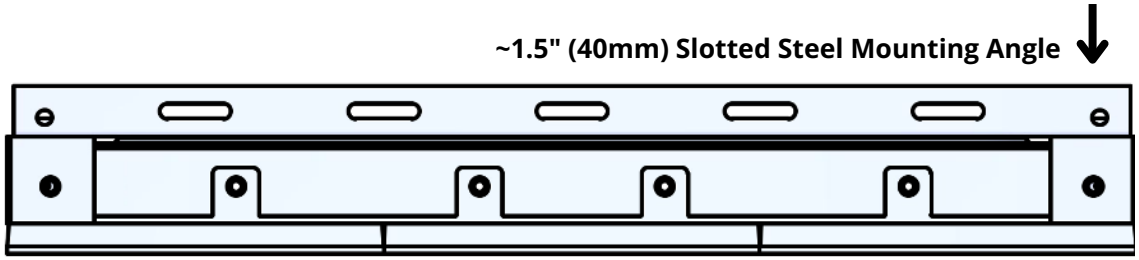

Impact Electronic Message Centers are fully integrated into a durable, cast aluminum cabinet with a black powder-coated finish, eliminating the need for any additional weatherproofing or external cabinetry.

For streamlined installation, 1.5" x 1.5" x 1/8" steel mounting angles are pre-installed at both the top and bottom of the cabinet's rear. These angles feature precision-punched mounting slots, removing the need for on-site drilling. Slots measure 1/2" x 2.25" and are spaced 7 1/16" on center.

Removable lifting plates (not shown) are included to ensure safe, efficient handling and positioning of the cabinet during installation.
